- MySQL
  - SQL server
  - databricks
  - SSIS SSRS
  - MongoDB
  - Oracle 11g,19c
  - Postgress

- Exam DP-900: Microsoft Azure Data Fundamentals
- CSS 2022 Mpt Qualifier

Over 3 years of hands-on experience in Database Administration and Development, including expertise as an ETL Engineer. Provided technical consultancy specializing in solution design, data migrations, system integrations, deployment strategies, and operational support.

**Fsc in Pre-Engineering | Punjab Group of Colleges, Lahore**  
Sep 2016 - Jun 2018

**Bachelors in Computer Science | University of Central Punjab , Lahore**  
Oct 2018 - Oct 2022

**CGPA 2.84**

**MS(Data Science), UET Lahore** **(InProgress)**

## Database Developer and Administrator (ETL data Engineer)| CureMD Lahore

### Mar 2023 - Present

- Database Design and Architecture
- ETL Development (SSIS,SSRS)
- Database Maintenance ,Performance Optimization and Administration
- Creating and managing Tables, Triggers, Functions, Indexes, and Constraints on database objects to support Application Development
- Database Architecture (Data Modeling, Making of DB Designs)
- Data Integration and Migration from different sources to destination.
- Installation and configuration of SQL server on windows.
- Managing and administering the databases.
- Handle the database backup and restore tasks. (Full, Incremental, Transaction logs).
- Prepare health check scripts for database.
- Create users in database. (Grant, Lock and unlock users).
- Create Users at database Level, also assign different roles at DB level.
- Rebuilding the indexes to remove fragmentation from indexes and boosting performance.
- Creating and Monitoring the Jobs through SQL Job Agent
- Schema Migration
- Database design
- Structured Query language DDL/DML/DRL/TCL/DCL/CONSTRAINTS
- Inline-Query/Sub-Query/Dynamic Query Creation/Correlated Sub-Query
- Data extraction using Python for Migration.
- AI agentic Migration Workflow using Gpt API key.
- Updating existing procedures and changing management.
- Deploying different database objects on different local dev and test environments.
- Database maintenance, backups & restore DB, job handling etc.

### Database Administrator Internship | Systems Limited Lahore

### Oct 2022 - Mar 2023

- Teamwork and Collaboration at Systems Limited
- Creating and managing Tables, Triggers, Functions, Indexes and Constraints on database objects to support Application Development.
- Developing SQL queries to extract reports for clients and office departments.
- Schema changes in replication Tables and Backup
- Migration of Databases
- Database Architecture (Data Modeling, Making of DB Designs)
